IWWCE® 2024
INTERNATIONAL WHOLISTIC WELLNESS CONFERENCE & EXPO

SABAH'S FIRST HOME-GROWN WHOLISTIC WELLNESS INTERNATIONAL EVENT

"Sustainable Wholistic Wellness Lifestyle for the 21st Century"

Post-pandemic and world turbulent events are severely affecting our spiritual, mental, emotional and physical wellness. **AEIWellness & QiMag** brings to you the world's first **International Wholistic Wellness Conference & Expo (IWWCE)** based on the complete **10 Wholistic Wellness Pillars** affecting human well-being and lifestyle. IWWCE2024 intends to connect everyone present at the event to wellness luminaries, experts and practitioners in natural, preventive health and remedial wellness practices from around the world!

The inaugural IWWCE is held for the first time at the **Sabah International Convention Centre (SICC)** in the city of Kota Kinabalu, Sabah, Malaysia, which is a strategic location for Asian countries, with a long history of traditional, complementary, and self-help proven wellness, preventive and remedial health and longevity practices that span thousands of years. It is our wish to create a Green-Blue-Clean Sabah™ – the land of vast unspoiled natural resources – as **Asia's Wholistic Wellness Centre & Health Tourism Destination**.

At this IWWCE2024 Conference, QiMag brings together local and international speakers, many of whom will bring their disruptive solutions to wellness and cutting-edge wellness products, services and information to you during the **3-days Conference** pack, which will be starting on the **7th to the 9th of June 2024** respectively.

The IWWCE2024 exposition incorporated the 10 wholistic wellness pillars as organised by AEIWellness. At the expo, from 7th to 9th June 2024, everyone gets the chance to visit, learn & experience with multi-national experts within the 10 health and wellness pillar. These experts include international wellness practitioners, health professionals, outdoor preventive health and tourism operators, medical tourism operators, retirement and aged care home providers, healthy home and office experts, government officials from health, tourism and agricultural sectors, modern cutting-edge health and technology providers, potential investors for health and wellness in Sabah, local and international travel agencies and NGOs of all related industries.

These and all of ASEAN, Asia and global citizens as well as students eager to **Learn, Experience, Associate & Practice (LEAP)** wholistic wellness, will all congregate in "One Pool" with educators, wellness and health experts from around the world.

This year's theme, '**Sustainable Wholistic Wellness Lifestyle for 21st Century**' bring forth ideas and solutions for sustainable wellness living and working for the 21st century and beyond.

Malaysians and world citizens – for the first-time – gets to experience the complete 10 Pillars of Human Health and Wholistic Wellness in one IWWCE event in Kota Kinabalu, Sabah, Malaysia! Come and LEAP into enlightening insights from multi-national experts, life-changing sessions & great networking with us!

GUEST OF HONOUR'S MESSAGE

Kopivosian and warmest greetings!
Welcome all to our home, Feel Sabah, North Borneo!

On behalf of the Sabah State Government, I welcome the world citizens, including all participants and readers of this Conference Magazine, to this inaugural 'InternationalWholistic Wellness Conference & Expo' 2024 (IWWCE2024).

I am very happy and proud that one of our native Sabahans has successfully organised the Sabah Homegrown 'International Wholistic Wellness Conference & Expo' event, for the first time, in the heart of Kota Kinabalu city in the Land Below The Wind that captures the eye, heart and soul of many nature-loving tourists.

My heartfelt congratulations to Madam Cleopatra Lajawai, the Organising Chairperson as well as Chief Executive Officer of AEI Wellness Sdn Bhd and QiMag Wholistic Professional PLT for taking up the challenge and leading the path in organising a very meaningful event to promote 'Sustainable Wellness Tourism' in our beautiful Sabah. The theme of this event,"Sustainable Wholistic Wellness Lifestyle for 21st Century" is both timely and essential at this moment as everyone resumes their lives post-Covid, as it is strategically aligned with our State Government's commitment to promote health, medical and wellness tourism in Sabah to the global community.

This event encompasses a comprehensive approach to promoting solutions to the 10 pillars of human wellness, starting from the Soul, Mental/Emotion, Body, Auric/Frequencies, Air, Water, Food/Nutrition, People/Relationship, Home/Workplace and Environment. Here, in Sabah, we have the right people and network of expertise who can provide you the wellness solutions you need, based on the 10 pillars. On top of that, there are still many opportunities for us to further enhance 'Sustainable Wellness Tourism' in Sabah, and we invite global wellness entrepreneurs and companies to explore the investment opportunities in the state.

I commend the organisers for promoting this first of its kind conference and expo that promises to offer life-transforming experiences through the 7-day Wholistic Wellness Immersion Retreat. I am given to understand that this retreat starts with a special 'nature communicating and feeling' experience at the Kinabalu Park, Malaysia's first World Heritage Site designated by UNESCO. This is one of the most important biological sites in the world endowed with over 4500 species of fauna and flora, over 320 bird species and hundreds of mammals as well as land snail species and animals. I hope everyone who participates will be able to enjoy this unique and exhilarating experience in our jungle.

Sabah is richly blessed with beautiful green nature diversity and untamed jungles, unique species of wildlife such as Orang Utans and Proboscis Monkeys, abundant negatively ionised fresh air, an oxygen-rich environment, and unique harmonious cultures from our 47 diverse ethnic groups, not to mention the fun heart-capturing adventures, beautiful blue sea and idyllic islands, renowned and breathtaking diving sites, and delicious buds-watering cuisines.

I hope through this first IWWCE2024 and going forward, global visitors will be able to enjoy the plentiful 'Sustainable Wellness Tourism' products, services and destinations offered by our local entrepreneurs, who are committed to providing their very best in serving customers.

I look forward to the next IWWCE event and wish the organisers flourishing growth in their efforts to continue promoting 'Sustainable Wholistic Wellness Lifestyle' to the local and global communities. Together, let us explore and embrace the sustainable wellness lifestyle and tourism opportunities in Sabah.

Do put Sabah in your heart and mind whenever you have the urge for soul-transforming moments and holidays in your life journey.

Thank you.

YB DATUK CHRISTINA LIEW
Minister of Tourism, Culture and Environment Sabah

MEET THE FOUNDER OF IWWCE2024
GRANDMASTER DR. JES LIM TYNG YEE, PHD

I am honored to be here to share over fifty years of research and practice in holistic wellness and preventive health. My journey began in the 1960s with the Malaysian Federal Government, where I worked on improving public services and reducing corruption. In the 1970s, I transitioned to corporate work with British multinationals Sime Darby and the Inchcape Group, focusing on corporate turnaround and reorganization in ASEAN countries.

Healing, herbal remedies, and sports medicine have been my lifelong passions, driven by the loss of my parents to cancer. For five decades, I have researched the causes of cancer and degenerative diseases, focusing on low-cost, non-invasive therapies for the underprivileged. My work has taken me to 53 countries, collaborating with clients and doctors on cancer, heart disease, diabetes, and immune disorders. Our research identified a link between degenerative diseases and geopathic stress frequencies, with over 97% of cancer patients exposed to these frequencies for at least five years.

In 1990, while serving as a WHO-UN volunteer in Sri Lanka, I founded the Qi-Mag International Feng Shui & Geobiology Institute. The institute trains practitioners to identify and neutralize harmful frequencies in buildings and promotes the design of healthy, longevity-supporting environments. We also registered international trademarks to issue "Healthy Buildings Quality Seals" for various types of buildings, making us the first holistic wellness group globally involved in healthy building certifications.

The International Wholistic Wellness Conference and Exhibition (IWWCE2024) embodies my life's work on the 10 Pillars of Human Wellness. We aim to integrate mainstream and traditional medicine for complete wellness and emphasize the importance of referring clients to more competent professionals when needed.

We chose Sabah for IWWCE2024 due to its pristine environment, which naturally supports healing. Our goal is to create global awareness and provide cost-effective health choices.

I thank Hon. Minister of Tourism Datuk Christina Liew and everyone supporting this event, and I wish you all holistic wellness and longevity.

DR. JES T.Y. LIM, PhD

Founder & Chairman of Qi-Mag Global Wellness Group

ORGANISING CHAIRLADY MESSAGE

Welcome to IWWCE2024!

As the organising chairperson, I extend our deepest gratitude to Honorable Minister of Tourism, Culture and Environment Sabah, Datuk Christina Liew for launching and declaring the opening of this world's first International Wholistic Wellness Conference & Expo (IWWCE) 2024. Themed 'Sustainable Wholistic Wellness Lifestyle for the 21st Century,' this event comprehensively covers the 10 Pillars of Human Wellness. Honorable Datuk Christina is a fervent supporter of Wholistic Wellness Tourism for Sabah and has proposed the establishment of Wholistic Wellness Centres in Sabah to promote Wellness Tourism. We are delighted to share with everyone present that this vision is soon to be realised.

After two years of planning and perseverance, IWWCE2024 is finally here. Over the past 12 months, through various local and international media forums, we have reached and created awareness of our Sustainable Wholistic Wellness Lifestyle initiative and concept among over 1 million global citizens. We have received interest from many renowned speakers from various nations eager to participate in our future bi-annual IWWCE2026 event.

The main objective of IWWCE2024 is to create global awareness of the Sustainable Wholistic Wellness Lifestyle, encompassing the 10 Pillars of Wellness. This awareness provides global citizens with multiple choices, better knowledge on preventive health, and the ability to select the most cost-effective wholistic therapies. Post-COVID, our primary goal is to educate and inspire global and ASEAN citizens to adopt a mindset focused on preventive health, transforming "illness to wellness" (as Dr. Kampon aptly puts it), and embracing "***love***," "***harmony***," and "***happiness***" as part of their daily lifestyle for soul, mental, emotional, and physical health.

We chose Kota Kinabalu as the inaugural venue for IWWCE2024 because Sabah offers the essential ingredients for prime wellness and health. Sabah's "GREEN-BLUE-CLEAN" pristine environment, surrounded by several million hectares of untouched jungle, the vast Celebes Sea which is also known as Sulu Sea, and the South China Sea, provides the highest negatively ionised air rich in oxygen and healing vita energy. Simply being in Sabah, breathing the healthy and refreshing air, is self-healing. Sabah is a healing and healthy paradise for global citizens. Wellness begins with the clean, high-quality air we breathe.

We extend our heartfelt thanks to all our visitors, exhibitors, sponsors, supporting partners, event partners, venue provider SICC, local and global media, and all the teams that have worked with us over the past 12 months to make this global IWWCE2024 a success. Our IWWCE2024 and IWWCE® brands have achieved global recognition and presence in the Health & Wellness Market. We will continue to advocate and promote Sustainable Wholistic Wellness Lifestyle practices to local and global communities. We invite all of you, global experts on the 10 pillars of wellness and participants, to join us in embracing the Sustainable Wholistic Wellness Lifestyle at every opportunity. We look forward to welcoming you again at the next series of IWWCE, the IWWCE2026! Venue and dates will be announced soon.

Once again, thank you for making the time to attend this event. We hope you leave with valuable insights and experiences to take back home.

Thank you.

MDM CLEOPATRA LAJAWAI
CEO of AEI Wellness Sdn Bhd &
QiMag Wholistic Professionals PLT

Chumba Lama's journey from a monk in Kathmandu to a global spiritual teacher is a tapestry woven with rich experiences. Raised amid the spiritual vibrancy of Swayambhunath stupa, he met esteemed teachers, including the 14th Kunzig Shamar Rinpoche. Serving as Shamar Rinpoche's assistant, Chumba imbibed spiritual empowerments and insights. Post-monastic life, he expanded his knowledge, studying with diverse masters worldwide—Dr. Rajiv Dixit, Guru Yoga Acharia, Sai Baba, Baba Ramdev, and more. From Sri Lanka to Tibet, he mastered acupuncture, Qi-Mag healing, Thai massage, and traditional Tibetan therapies. In Germany, he embraced chiropractic, Dorn method, and Aurum Manus massage. Chumba spreads wisdom globally, teaching Tibetan breathing yoga with warmth, humor, and kindness. His altruistic spirit shines as he annually returns to Nepal, building wells and schools in remote areas. Published author in Germany, his books illuminate the touching life story of Chumba Lama and share the essence of Tibetan Breathing Yoga.

Madhusudan Rajagopalan, an entrepreneur, altruist, and social advocate, epitomizes versatile leadership with a passion for societal impact. As CEO of Water and Light Applications India, he pioneers transformative coherent water technology, validated through scientific studies. Committed to higher purposes, Madhusudan serves as CEO of MohanjiFoundation, overseeing global strategic initiatives, administration, and special projects. He is also a director at the Himalayan Academy of Traditions, promoting traditional sciences and Bharat's heritage. With a background in knowledge process outsourcing, Madhusudan co-founded a global organization and excelled in management consulting. Academically, he holds a PGDM from IIM Bangalore and a B.Tech from IIT Madras. Recognized with the India Achievers' Award, he continues to drive positive change globally.

Dr. Amnah Abdullah, a Sabah Herbal and Inherited Remedies Researcher, embodies a holistic approach to wellness, integrating physical, mental, emotional, and spiritual dimensions. With a background in conventional medicine, she transitioned to essentially plant-based remedies, registered under Malaysia's Traditional and Complementary Medicine. Armed with a PhD in Science Education and an MSc in Pharmacy, Amnah advocates for bridging traditional healing with scientific research. She empowers audiences to take control of their lives through sustainable herbalism practices, emphasizing responsible sourcing and supporting local suppliers. Amnah preserves herbal traditions, drawing inspiration from her great-grandmother's legacy, and authored volumes documenting Sabah's traditional knowledge, emphasizing the potential of herbal healing for transformative individual lives.

The 2 Sides Of Us

There is darkness and there is light. This is the basic duality, the opposites, of human existence. Darkness and light are the polarities by which we define our world, as if they are only 2 ends in the infinite range of human experiences. We like duality and tend to see things as "right" or "wrong", "this" or "that", "us" or "them", "good" or "evil" because to do otherwise would be too complicating and inefficient.

For most part, we describe the unpleasant and grim experiences at one extreme as the dark, while the pleasant and joyful ones as light. Instinctively, we are afraid of what may be hiding in the dark so we associate unpleasantness with darkness. The light is where we feel energized and in control so we associate light with all that's seen and good.

Many traditions make references to light, amongst them being Hinduism, Buddhism, Christianity, Islam, Judaism and Zoroastrianism, all of which refers to light as a transcendent quality that's beyond normal human experience or expression.

*Your soul is the part of you that consists of your **Spirit, Mind, Character, Thoughts, Feelings and Experiences***

Our modern world is experiencing regular human's conflicts and disharmony at homes, in our working places and in the community, resulting in negative events at homes, offices and neighborhood. At country level, conflicts between and amongst countries led to war, destruction, economy breakdown and sickness/killings/death of civilians.

Come Learn Neutracon with QiMag Wholistic Professionals PLT

This special course help individuals to RESET THEIR NEGATIVE EMOTION AND PROSPERITY MINDSET and eliminate negative immature emotional behaviors and strengthen positive behavior to restore Love, Happiness and greater Abundance. This course also helps to RE-manifest your past life successes, abundant lifestyle and natural accumulation of prosperity and Wealth and support to change your lifestyle. These techniques helps to clear spiritual, mental and emotional blockages caused by related individual's own past experiences, be it from this lifetime or lives prior to this lifetime.

The main cause of all these disharmonies and conflicts are due to immature adults, behaving negatively and taking leadership roles at homes, workplaces, communities and countries.

The only major differences among humans are the QUANTUM AND DEPTH OF EACH QUEST or response and a bigger ambition. Negative Immature Emotional Behaviors of individuals and groups of people are the ROOT CAUSES of all destructions everywhere. Our behaviors and how we live our daily life, whether it is good or bad, would continue until we are Awakened and Aware (Spiritually Enlightened to a specific problem) of our weaknesses and have strong Will Power, Courage or Boldness and Perseverance to make necessary desire to change for the better, especially in our Quest for a better lifestyle with higher continuous "Prosperity, Abundance, Financial Independence, Harmony & Longevity"

The time is NOW to 'overcome' the life blockages, mental, emotional & health energetic challenges & lack of abundance consciousness!

Sandplay Therapy

Sandplay Therapy is a psychotherapy technique created by Swiss analytical psychologist Dora Kalff in the 1950s based on analytical psychology, world techniques and Eastern philosophy. The therapist uses Jung's "image" theory to accompany the client to build his inner world in a special box filled with fine sand, and analyze the client's work to achieve self-healing.

Sand Detective

Sand Detective is a practical comprehensive psychological counseling technology launched on the Hexie Ark platform, which integrates the theories and scientific methods of Dora Kalff Sandplay Therapy, Jungian analytical psychology, digital psychology, applied psychology and other disciplines to assist the case to find and solve problems. Sand exploration can discover the subconscious state of oneself and others, explore the deep inner needs, release pressure, improve oneself, improve physical and mental disorders, and present a more complete inner world.

BCR (Biological Cell Regulation) system is a cell therapy system used for Preventive Healthcare, Wellness, Beauty, rehabilitation of Pain, Paralysis and for Injury Healing.

The system through electrical resistance in the body gauges the states of health and illness. It then uses bio-cybernetic algorithms to administer treatments automatically without human intervention. Treatments include applications of Microcurrent, Frequency, Polarity and LED nano light therapy, all regulated by an artificial brain in response to biological feedback.

BCR system originated in Germany in 2002 as a medical system for Hospitals. Today it is miniaturised for use as a complete device for Health, Wellness and Beauty.

InSuRes

Insulin Resistance and ***Small Fiber Neuropathy Analyzer***

Non-invasive PC based InSuRes device does analysis of **Insulin Resistance** and **Small Fiber Neuropathy**

What does InSuRes do?

InSuRes allows a physician to quickly determine ***Insulin Resistance and Small Fiber Nerve*** functioning as a biomarker for ***Peripheral Nerve Integrity***.

Worsening Insulin Resistance and Small Fiber Nerve function may signal poor patient response to treatment or lack of compliance and initiate a discussion between physician and patient on a change in therapy.

This information is complementary to traditional blood tests, and is quick ***(7 minutes)*** and offers immediate results, it can be done at regular intervals to monitor patient progress.

InSuRes Comprises of:

Photoplethysmography (PPG):
Insulin Resistance measurement with parameters based on power spectral analysis of multi-pulse statistical normalized PPG waveforms.

Galvanic Skin Response:
Small Fiber Neuropathy measurement based on Galvanic Skin conductance response to **alternating Stimuli**.

Rose Quartz Roller

Love & Compassion

AEI Wellness Sdn Bhd
(1149793-M)

Sometimes we need help...
We need help from the natural frequencies of our higher self...

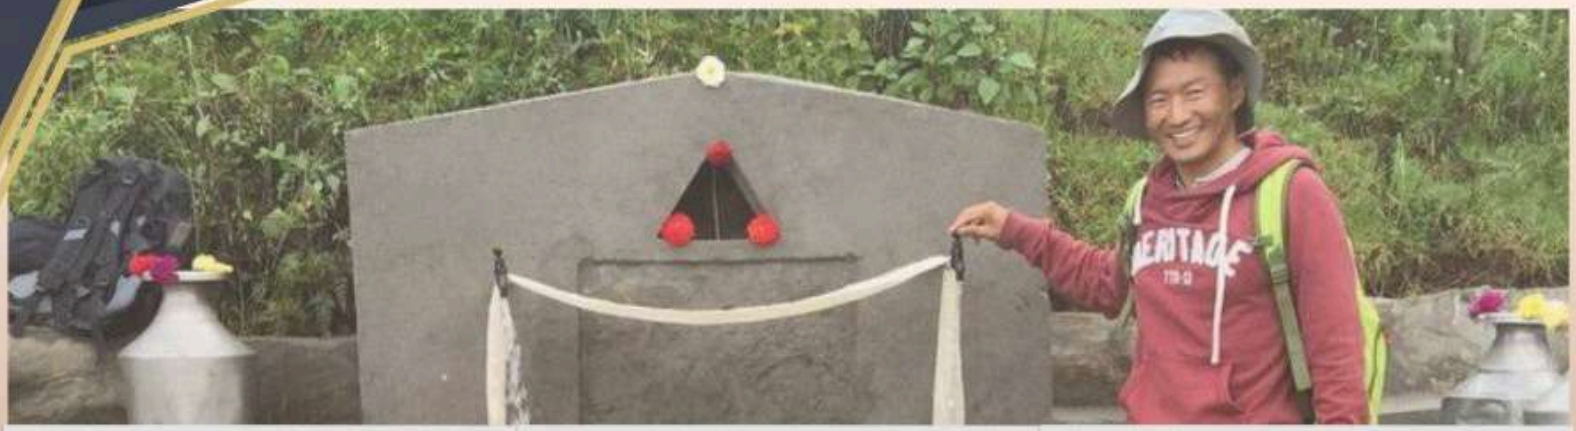

This is How We Do it at AEIWellness:

'Communicating' healing & love messages to someone we had an argument with

1. **Write down the name of the person you want to send love to.**
2. **Rub the crystal infused oil in clockwise motions on the surface of your palm starting from the center, moving outward (any palm will do to start with) - do this for 2 rounds.**
3. **Put both palms together and rub both palms to integrate the other palm with the positively charged oil.**
4. **Put both palms in front of your nose and inhale the positively charged oil with eyes closed and at the same time, visualise the person you love in front of you. Send the healing & love messages at this time and hug the person before ending this 'communication' channel.**
5. **Repeat step 4 above for 7 times and anchor by touching your forehead after each time.**

Notes:

1. During the communication, avoid negative and blaming messages as it will not help to heal or improve the relationship.
2. Above suggested tip with AEIWellness' Rose Quartz Crystals Roller can be used by any person with good and positive intentions only.

CHUMBA LAMA

Master of Tibetan Breathing Yoga

Chumba Lama's journey from a monk in Kathmandu to a global spiritual teacher is a rich tapestry. As Tibetan Holyman Shamir Rinpoche's assistant, he gained spiritual insights. Post-monastic life, he studied with masters worldwide, mastering various healing techniques. He teaches Tibetan breathing yoga globally with warmth and kindness, and he returns to Nepal annually for altruistic projects. He is attached to a non-profit organisation and to date, has helped to build schools and water systems for villages up in the Himalaya mountains. He and his team need financial support and calls for donations from those who are willing to contribute in such altruistic projects.

Conscious Tourism Ecosystem

ARE YOU READY TO GROW GLOBAL & THRIVE THROUGH THIS SUSTAINABLE BUSINESS COMMUNITY FROM ASIA?

What is Conscious Tourism?

The world has shifted from the Industrial Age to the Information Age and now to the Consciousness Age. To stay ahead, it's crucial to align your lifestyle and business strategy with this trend towards conscious consumerism and offering transformative experiences to your clients.

In contrast to traditional approaches, Conscious Tourism introduces a contemporary framework that unites travel, tourism, and hospitality sectors as an interconnected ecosystem, benefiting all involved parties.

GOGLOBAL presents a Global Conscious Community from Asia, emphasises collaboration, complementarity, and cohesiveness to provide a comprehensive solution, resulting in exponential growth in the industry.

Let's elevate the life experiences for travelers by transforming how they experience travel in Asia!

GO GLOBAL ACCELERATOR

We take You as Far as You Want to Go

THIS BOOK QUITE SIMPLY SPELLS OUT EXACTLY HOW TO ADRESS READING PROBLEMS. AND THAT IS IT! RIGHT TO THE POINT. PARENTS AND TEACHERS WILL BE RELIEVED TO FIND IN THIS BOOK HOW THEIR STUDENTS CAN EASILY LEARN HOW TO READ!

THIS BOOK WILL ALSO BE USEFUL FOR TEACHING DYSLEXIC CHILDREN.

LUQMAN MICHEL EMBARKED UPON TEACHING CHILDREN HOW TO READ WHEN REQUESTED TO DO SO BY HIS NEIGHBOUR WHOSE SON COULD NOT READ EVEN A SINGLE SENTENCE AFTER 2 YEARS OF SCHOOLING AND KINDERGARTEN.

AFTER OBSERVING HOW AND WHY CHILDREN COULD NOT READ, HE FORMULATED A VERY SIMPLE PROCEDURE TO TEACH THEM HOW TO READ.

BECAUSE THE SOLUTION TO READING PROBLEMS IS ACTUALLY QUITE SIMPLE, MANY PARENTS AND TEACHERS ARE QUITE DUMBFOUNDED.

THERE IS NOTHING TO IT. JUST TEACH THE SOUNDS REPRESENTED BY LETTERS CORRECTLY AND INFORM THE STUDENTS THAT ALMOST ALL THE LETTERS REPRESENT STUDENTS THAT ALMOST ALL THE LETTERS REPRESENT MORE THAN ONE SOUND.
THAT IS ALL.
